Who is a Recovia Patient?

1. Any long-term opioid therapy patient who has vocalized a desire to reduce or eliminate medication, or has a substance use issue.
2. Any patient that has a concerning MEDD (Morphine Equivalent Daily Dose) OR Substance Use Disorder including Opioids (Oxycontin), Benzos/Anxiety Medications, Muscle Relaxers, and/or Alcohol that is concerning to the physician.
3. Any patient who has a pattern of increasing use of the above substances over time with decreased function or increased pain.
4. Any patient who has a chronic pain diagnosis even without opioids that is experiencing decreased function or increased pain.

What We Treat:

- Opiate use greater than 3 months (prescribed or not prescribed)
- Addiction - opioids, xanax, muscle relaxers, marijuana, alcohol, and polysubstance use
- Chronic Pain
- Depression/Anxiety - not responding to current or traditional treatment approach

Exclusion Criteria:

- Unstable psychiatric status
- Alcohol use to the point of withdrawal if not consumed in a 24 hour period of time
- Acute injury, open wound
- Unstable living situation (homeless, etc.)
